Direct Jobs and Work Opportunities

Direct Jobs (000's)

CAGR (2017- 2024): 3,5%

After a drop in the number of direct jobs in 2015 and 2016, the sector has shown continuous growth in the following years, ending 2024 with an increase of 7.7% over 2023, equivalent to 11,000 direct jobs.

Work Opportunities (000's)

CAGR (2017-2024): 2,1%

There was a significant recovery after the crisis generated by the pandemic, with a resumption of growth and the generation of work opportunities. In 2024, this recovery was consolidated, resulting in a significant increase of 16.0% in total work opportunities, which reached 7.1 million.

Socio-economic impact of the CT&F sector

The matrix effect shows the relevance of a sector along the production chain:

- Value added in the other sectors
- Sectorial interrelations
- High income generation capacity (salary mass multiplier)
- High collection capacity (seen in the tax multiplier)

When **R\$ 1 billion** is allocated in the **CT&F sector***, it is generated in the Brazilian economy:

	PRODUCTION (R\$)	OCUPATION (Units, for 1 year)	TAXES (R\$)	WAGES (R\$)
CT&F	1,3 Billion	25 Thousand	591 Million	509 Million

As a comparison, the same increase in agriculture or industry generates:

Agriculture	1,2 Billion	41 Thousand	157 Million	321 Million
Industry	1,3 Billion	26 Thousand	346 Million	484 Million

Note: For the analysis, the fragrance, hygiene and cleaning sector was considered - in 2015 values. Employment multiplier includes formal and informal occupations. Source: Prepared by LCA, based on the Resources and Uses Tables of the 2015 System of National Accounts. **Updated in August 2023.**

Tax Map

Since 2015, the CT&F sector has been impacted by a series of tax measures that, combined with the unfavorable political and economic scenario, have harmed the industry's results.

The risk of consecutive and indiscriminate measures (IPI and ICMS), under the pretext of increasing resources to the public coffers, has been lowering sales in the sector and, therefore, reducing the collection curves, in an effect contrary to that intended by the government.

The sector was penalized with an increase in ICMS in 24 states and the Federal District, according to the map, in addition to the strong impact caused by the shift of the IPI from the industry to the distributor that occurred in 2015.

In 2024, the scenario will be even more challenging in view of the increase in the modal rate of ICMS approved in several UF's at the end of 2023.

Biodiversity

ABIHPEC reinforces its commitment with the Environment fostering the **sustainable use of biodiversity** applied to the development of **products and solutions**, and encouraging the **sharing of benefits** from the economic exploration of Brazilian biodiversity involving **access to the genetic heritage and associated traditional knowledge (Law n° 13.123/2015)**:

The sector representation with the **Ministry of Environment (MMA)** and other agencies;

Member of CGEN (Genetic Heritage Management Council);

Publication of contents on the theme, as well as **technical notes** produced from discussions made in the **Working Group on Biodiversity**.

Climate Changes

Brazil has national targets for the **reduction of greenhouse gas emissions**, extending this commitment to industries, making it essential to **raise awareness** and **adopt the best climate management practices** (measurement, reduction, adaptation).

Working Group on Climate Change

Participation in **national and international forums and events** (ex. COP29).

Dialogue with executive and legislative powers for monitoring of the climate change regulatory agenda.

Guidance and awareness to associated companies about climate management

1 Million tons of packaging recovered*

Pioneer program for reverse logistics of packaging in general since 2006, **Mãos Pro Futuro Program** carries out actions turned to the recovery and appropriate destination of packaging, after consumption, creating **generation of jobs, income improvement, and social inclusion.**

It also created the “**Mãos Pro Futuro Seal**”, which aims to inform consumers of the **percentage of post-consumer packaging placed on the market by participating companies that is recovered and properly disposed of.**

The “**De Bem com Você - A Beleza Contra o Câncer**” (Look Good, Feel Better) Program offers self-makeup and self-care workshops to patients undergoing cancer treatment, with the support of the CT&F industry.

Today the program has **56 partner hospitals** in **14 states**, **34 municipalities** and, since the program began (2012), it has assisted **more than 50,000 patients**, with the involvement of more than **200 volunteers**.

The program currently **offers in-person and virtual self-makeup workshops, and also via video-classes**.

In 2024, **10.931 womens** were assisted in **610 workshops**, in addition to an agenda of **live streams** with special guests who brought topics related to **oncology, self-esteem, self-care, beauty and well-being**.

In November 2023, the Men's Self-Care workshop began, with the aim of serving men undergoing treatment, thereby improving the self-esteem and emotional health of all beneficiaries. **In 2024, 30 self-care workshops were held for men, serving around 200 cancer patients.**

March/2025

The Educação, Dignidade e Beleza (Education, Dignity and Beauty) project aims to **promote employability and entrepreneurship**. In 2023 and 2024, it supported 4 institutions and about **820 learners**: Instituto Profissionalizante da Mangueira (RJ); Crescer Semper Association (SP); Banco da Providência (RJ), Casa do Menor São Miguel Arcanjo (CE).

Childhood Brasil, which has been supported by the **ABIHPEC Institute** since 2017, works to guarantee the defense of the rights of children and adolescents with a focus on preventing and confronting sexual violence. **In 2024, more than 35 million people were impacted by Childhood Brasil's content on social media.** We also co-sponsored the screening of the short film "[I have a voice](#)" in educational environments in the city of São Paulo, followed by debates on the subject.

The project aims to develop affirmative actions aimed at promoting greater equity and racial representation in the beauty sector.

It was born from the initiative of the **CPDCN – Participation Council, Development of the Black Community of the Secretariat of Justice and Citizenship of SP**, with support from the extinct **CORES – Social Responsibility Committee of FIESP**, technical support from **SEBRAE – SP** and coordination of the **ABIHPEC Institute**.

Among the actions promoted, the following stand out: The training of black entrepreneurs in the beauty sector; support for black people in professional training courses in the CT&F sector; actions to promote greater representation of black people in management positions in companies in the sector, among others.

In 2024, we offer 3 scholarships in the olfactory evaluators course at Paralela Escola Olfactory with French methodology.
