## Generates around 6.9 million work opportunities

- Industry
- Franchise
- Direct Sales Consultancy
- Beauty Salons

Sources: ABIHPEC, ABEVD, ABF, e PNAD-IBGE (mar/2026)

The generation of direct jobs in the industry increased by 1.4% in 2025 compared to 2024, which represents the creation of 2,100 new work opportunities.

## Work opportunities per channel

WORK OPPORTUNITIES ('000)											
	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Varição 25/24

## Direct Jobs and Work Opportunities

### Direct Jobs (000's)

CAGR (2018- 2025): 3,1%

After a decline in the number of direct jobs in 2015 and 2016, the sector has shown steady growth in subsequent years, ending 2025 with a 1.4% increase over 2024, equivalent to 2,100 direct jobs.

### Work Opportunities (000's)

CAGR (2018-2025): 1,8%

In 2025, after the post-pandemic recovery, there was a slight deceleration in the labor market, with a reduction of 2.3% compared to 2024. Still, opportunities remained high, totaling around 6.9 million, indicating accommodation after the recent peak, but at a historically relevant level.

## Socio-economic impact of the CT&F sector

The matrix effect shows the relevance of a sector along the production chain:

- Value added in the other sectors
- Sectorial interrelations
- High income generation capacity (salary mass multiplier)
- High collection capacity (seen in the tax multiplier)

When **R\$ 1 billion** is allocated in the **CT&F sector\***, it is generated in the Brazilian economy:

	PRODUCTION (R\$)	OCCUPATION (Units, for 1 year)	TAXES (R\$)	WAGES (R\$)
CT&F	<b>1,3 Billion</b>	<b>25 Thousand</b>	<b>591 Million</b>	<b>509 Million</b>

As a comparison, the same increase in agriculture or industry generates:

Agriculture	<b>1,2 Billion</b>	<b>41 Thousand</b>	<b>157 Million</b>	<b>321 Million</b>
Industry	<b>1,3 Billion</b>	<b>26 Thousand</b>	<b>346 Million</b>	<b>484 Million</b>

**Note:** For the analysis, the fragrance, hygiene and cleaning sector was considered - in 2015 values. Employment multiplier includes formal and informal occupations. Source: Prepared by LCA, based on the Resources and Uses Tables of the 2015 System of National Accounts. **Updated in August 2023.**

## Tax Map

Since 2015, the CT&F sector has been impacted by a series of tax measures that, combined with the unfavorable political and economic scenario, have harmed the industry's results.

The risk of consecutive and indiscriminate measures (IPI and ICMS), under the pretext of increasing resources to the public coffers, has been lowering sales in the sector and, therefore, reducing the collection curves, in an effect contrary to that intended by the government.

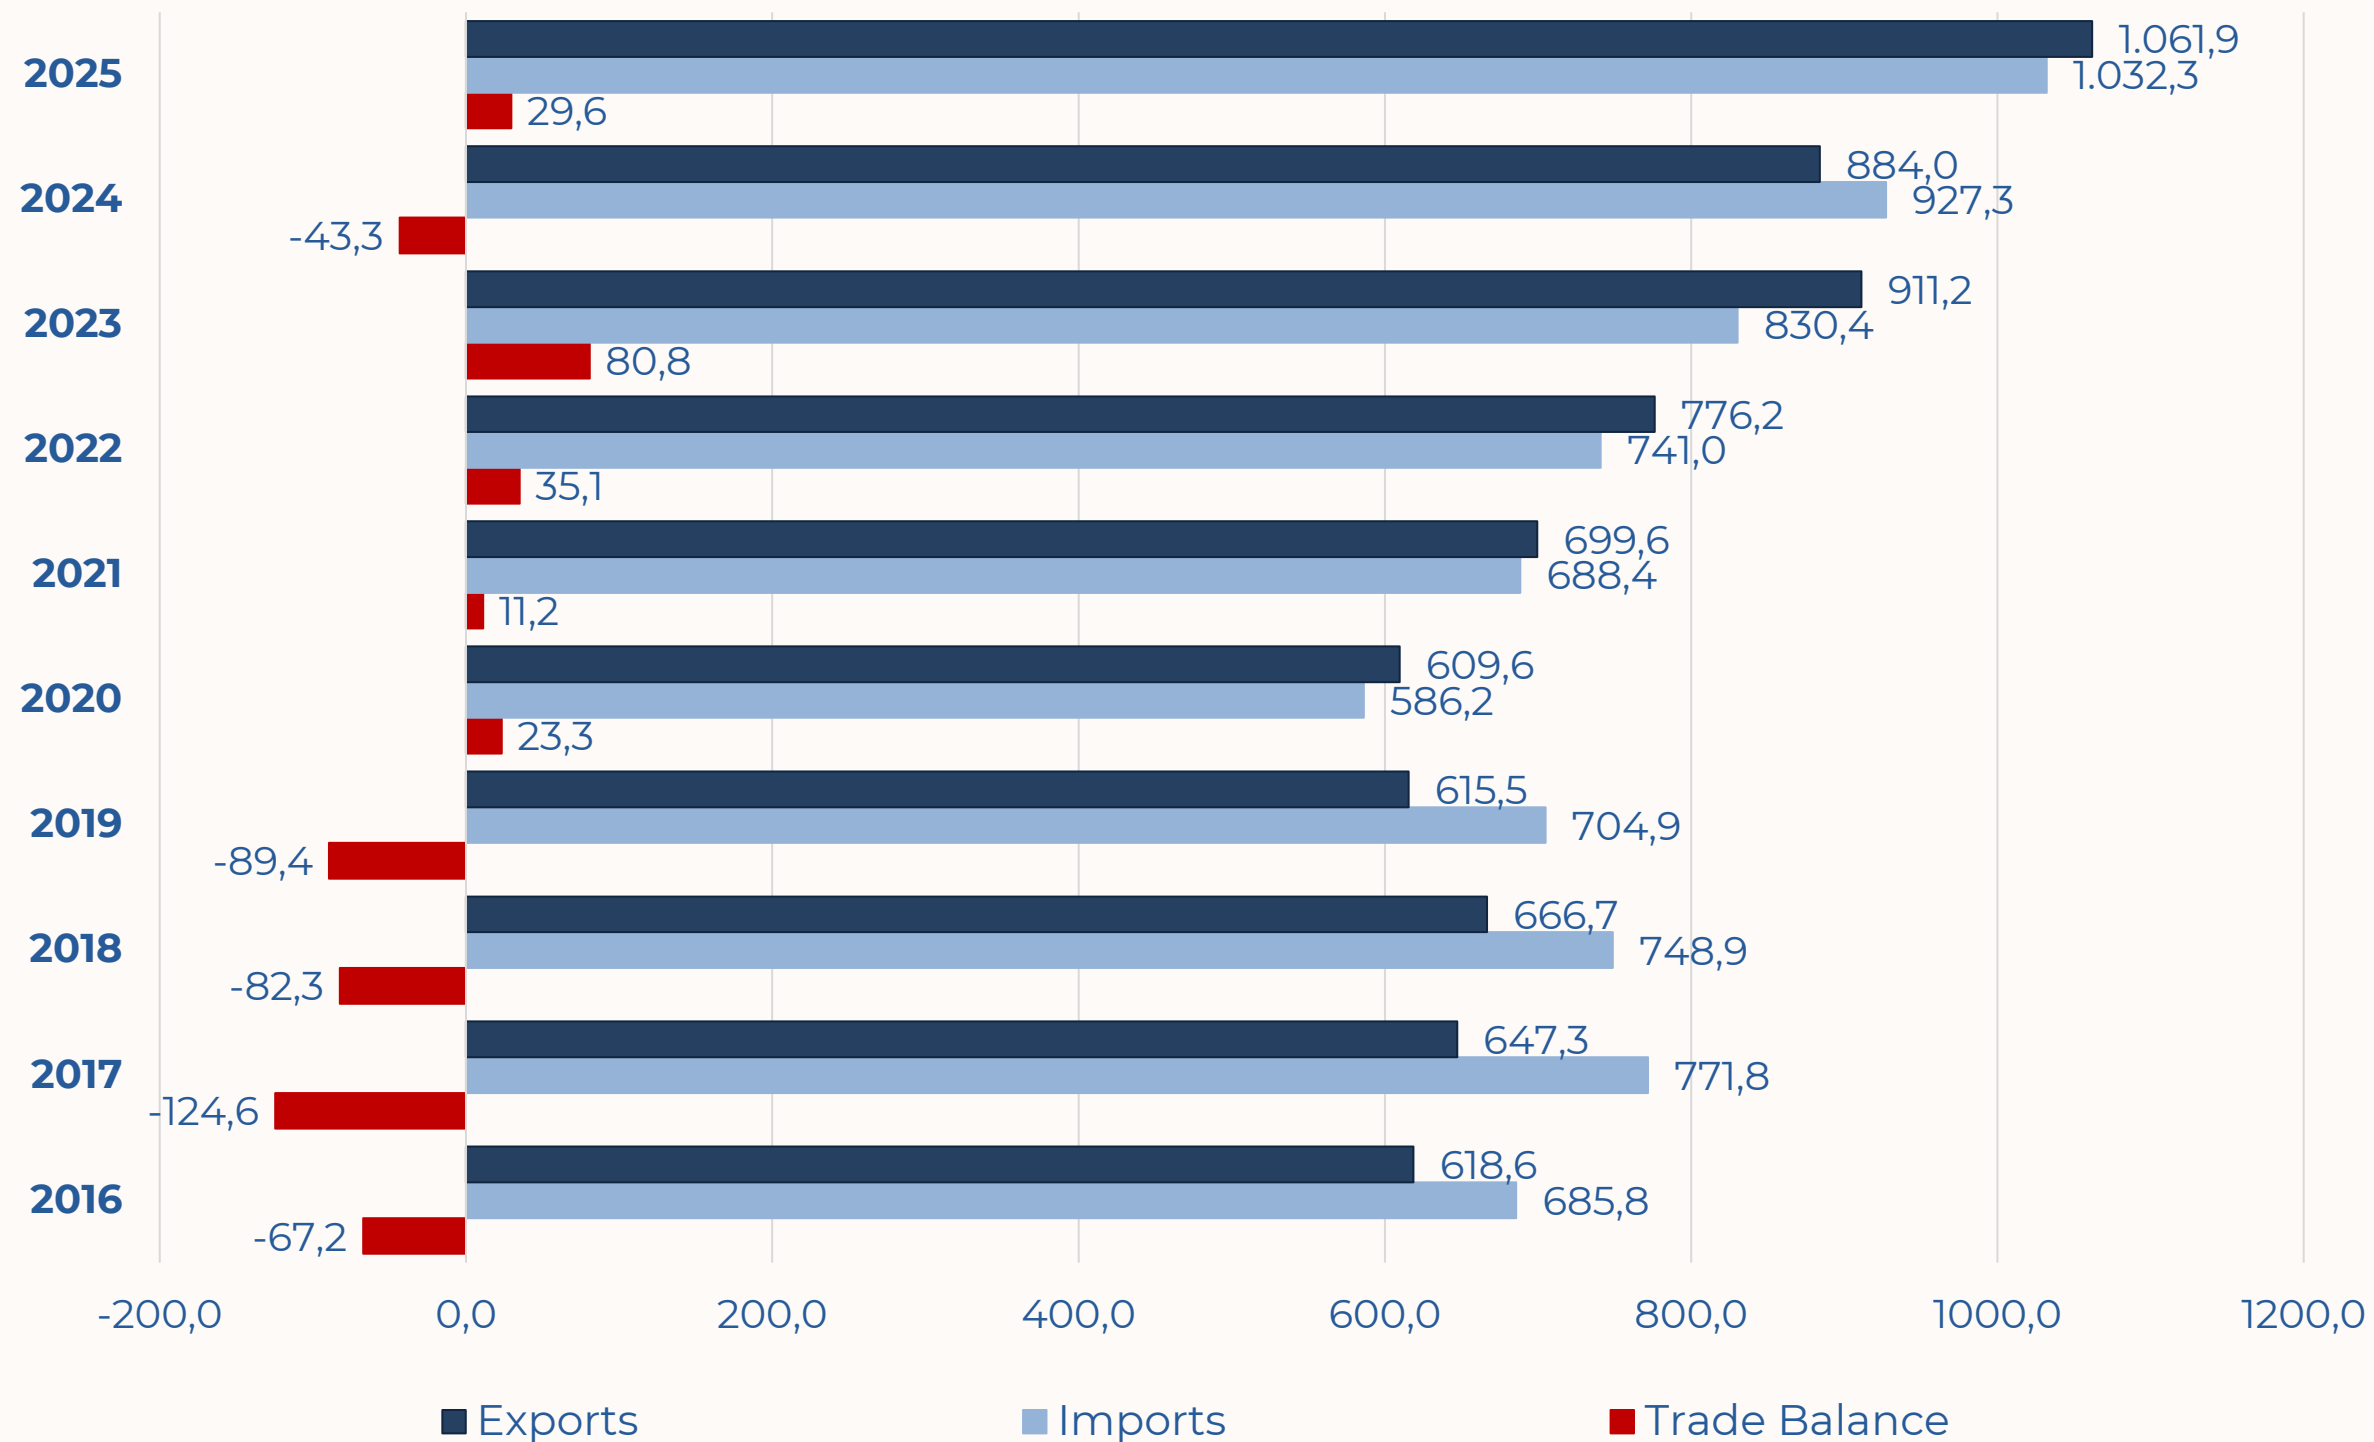

The sector was penalized with an increase in ICMS in 24 states and the Federal District, according to the map, in addition to the strong impact caused by the shift of the IPI from the industry to the distributor that occurred in 2015.

In 2024, the scenario will be even more challenging in view of the increase in the modal rate of ICMS approved in several UF's at the end of 2023.
